INNOVATIVE GEAR FOR THE OUTDOORS

# RACK JACK II BIG GAME FIELD-DRESS ASSISTANT

**LIFT, LOAD AND FIELD-DRESS BIG GAME OR OTHER HEAVY ITEMS BY YOURSELF!**

**The Rack Jack is a portable, hand-winch powered lifting device that mounts in a standard 2" rear hitch receiver, or sets up free-standing with an accessory ground stand.**

The Rack Jack is a hitch mounted hoist that swivels a full 360 degrees to allow you to load game animals up to 300 lbs with a simple three piece attachment and installation! We designed the Rack Jack for ease of use – you insert the receiver piece and a hitch pin, put the vertical column on the post, and attach the boom with winch and you're ready to hoist. Since we designed the boom/winch piece as one unit, there is no cable threading or alignment of holes and pins – we use a bracket and slot design that is fast and foolproof. The Rack Jack features machined pulleys – we wanted to produce a high quality product that will not bind or jam, and plus we provide a high strength hook for attaching your favorite gambrel. We also make an accessory ground stand, so when you get your trophy home you can use the same vertical column piece and boom/winch piece in your garage or back yard!

- Initial winch and cable installation time of 10 minutes or less!
- Three pieces for standard hitch model
- Total set up time of less than two minutes
- 300 lb weight capacity
- Bearing plate allows game to be swiveled and loaded into truck bed
- Engineered for years of trouble free use

\*Optional Ground Stand Attachment

U.S. Patent No. D758,254

**Rack Jack gives the hunter the ability to set up and easily lift and load heavy game.**

*Mounts in a standard 2" receiver or stand alone with the optional accessory ground/floor stand (As shown below).*

# RACK JACK™ MAGNUM BIG GAME FIELD-DRESS ASSISTANT

## LIFT, LOAD AND FIELD-DRESS BIG GAME BY YOURSELF!

**The Rack Jack Magnum is a portable, hand-winch powered lifting device that mounts in a standard 2" rear hitch receiver.**

The Rack Jack Magnum is a hitch mounted hoist that swivels a full 360 degrees to allow you to load game animals up to 650 lbs with a simple three piece attachment and installation! We designed the Rack Jack for ease of use – attach the two outriggers and vertical piece to your receiver part for easy setup and you're ready to hoist. Since we designed the boom/winch piece as one unit, there is no cable threading or alignment of holes and pins – we use a bracket and slot design that is fast and foolproof. The Rack Jack features machined pulleys – we wanted to produce a high quality product that will not bind or jam and we provide a high strength hook for attaching your favorite gambrel.

- Offset outrigger design gives you extra stability and lifting capacity
- Total set-up time of less than two minutes
- Rack Jack Magnum weighs 59 lbs with a 650 lb weight capacity
- Bearing plate allows game to be swiveled and loaded into truck bed
- Engineered for years of trouble-free use

# STACK RACK II HITCH MOUNTED HAULING SOLUTION

## OUR CARRIER GIVES YOU HUNDREDS OF HAULING OPTIONS

**Stack Rack II is your one-stop solution for all your hitch hauler needs.**

NOW INCLUDES DOUBLE BASKETS FOR CARRYING MULTIPLE COOLERS OR OTHER BULKY ITEMS! Stack Rack II will adapt to every situation with ease. Grab your hunting gear and giant cooler to keep your game fresh and pile it all on Stack Rack. Strap it all down and don't worry about access to the rear hatch or tailgate, Stack Rack II tilts to give you room to load or unload. How about a quick fishing trip? Stack Rack II is ready for your cooler, bait buckets, rods, chairs and anything else you might need. What about a camping trip or just a weekend getaway? All your gear fits, even your tools for work or projects and all without cutting off access to your rear storage. If you need a quality engineered and ruggedly built hitch storage solution with ultimate adaptability, then the Stack Rack II should be in your garage!

- Tilts for easy access to vehicle
- Dual baskets for multiple carrying configurations
- Rugged heavy steel construction for strength and durability

Patent Number: D 757,612

# RACK JACK™ 4X4 HEAVY LIFT AND LOAD ASSISTANT

LIFT, MANEUVER & LOAD BIG ITEMS ON YOUR ATV/UTV

The newest addition to the popular Rack-Jack line of receiver based hoists from Viking Solutions — this new hoist is durable, affordable, more compact, and is designed for those who would like a smaller version of the Rack Jack. The Rack Jack 4x4 also includes a “foot” for use on ATVs and UTVs, making it a must-have for those hunting or camping or who use their ATV/UTV to load heavy objects.

As with our other Rack Jack products, we have a one minute or less field installation, machined aluminum pulleys, a powder-coated finish, and a 300# capacity as on our Rack Jack original. The Rack Jack 4x4 will work on pickups or SUV's as well — it is just not as tall as the original Rack Jack.

- 300 lb. capacity
- Approximately 84" Lift Height to the pulley (depends on the 2" receiver hitch height on your vehicle)
- One-time initial assembly (install winch, one bolt, 2 pulleys) and then one-minute field installation thereafter
- 11 gauge tubing
- Powder-coating for years of use
- 600 lb. rated winch
- Includes “foot” stabilizer for use on ATV/UTV (not needed on regular highway-use vehicles)
- Rotates 360-degrees for easy loading

## **KWIK HOIST** EASY LIFTING ASSISTANT

**FIELD DRESS BIG GAME ANYWHERE THERE'S A TREE**

**The Viking KwikHoist is a simple, rugged hoist for deer and other game animals that attaches to most any tree or pole in seconds.**

The high strength chain simply wraps around the tree or pole and then slides into a slot on the bracket holding the chain. Pull down on the lower boom to cinch the KwikHoist – couldn't be easier! The KwikHoist comes with a ratchet-style winch and cable with a hook for attaching your gambrel – hook the KwikHoist to a tree – attach the chain – hook your gambrel on and then crank your animal up to the desired height. The height of the boom is determined by how high you attach your KwikHoist – you can adjust it by easily unhooking and reattaching the chain. Don't struggle with ropes and other hard to use hoisting systems – get the KwikHoist and eliminate the strain. Non-Folding. Doubles as a feeder hanger.

- Durable powder coat paint finish will last for years
- Chain and lower bracket design allows fast installation and secure station for hoisting
- Engineered design maximizes ease of lifting game
- The light weight of 20 lbs allows easy installation and take down
- Machined pulleys help eliminate binding and will last for years
- Priced so that you can have one at home, camp, and all other locations
- 400 lb. weight capacity allows for hoisting large animals

U.S. Patent No. D718,410 S

## **FOLDING KWIK HOIST** EASY LIFTING ASSISTANT

**FIELD DRESS BIG GAME ANYWHERE THERE'S A TREE**

**Just like our popular Kwik Hoist, the Folding Kwik Hoist is the perfect tool for field-dressing big game on location.**

It has the same easy chain attachment method and a powerful hand winch to make quick work of raising your trophy. The feature that sets it apart is its ability to fold and fit on the back of your ATV, in the bed or tool box of your truck, or wherever space is at a premium.

We've packed all the benefits of an easy to use portable game hoist into a foldable package that is transportable and quick to set up with no tools or pins. It is truly the best of both worlds and is engineered and constructed for years of trouble free use. Add a folding Kwik Hoist to your hunting arsenal and never be without a way to lift your big game. Doubles as a feeder hanger.

- Durable powder coat painted finish will last for years.
- Chain and lower bracket design allows fast installation and secure station for hoisting
- Engineered design maximizes ease of lifting game
- The light weight of 20 lbs allows easy installation and take down
- Machined pulleys help eliminate binding and will last for years
- Priced so that you can have one at home, camp, and all other locations
- 300 lb weight capacity allows for hoisting large animals

U.S. Patent No. D773,603

## L-E-VATOR PORTABLE LIFTING TOOL

**LOAD GAME BY YOURSELF WITH EASE**

**Here's the fastest and simplest solution to loading your deer onto an ATV, UTV, or pickup!**

This product is lightweight, transportable, and sets up in one minute or less. Simply unfold the feet and the lifting arms, push the support cables into their slots on the feet, lower the arms and push the deer on, then crank away! We designed the product for ease of use and tried to make it affordable – we know that you don't need a strained back (or worse) from loading a deer – we all used to dread it until now! The L-E-Vator features a durable powder coat finish that will last for years. As with all Viking products, we strive to make your hunt more enjoyable! 22 lbs and lifts to 41". Weight limit of 300 pounds.

U.S. Patent No.  
9,055,738 B1

## BUCK UP II SIMPLE AND EASY FREESTANDING GAME HOIST

**EASY TO SET-UP TRIPOD WITH MORE ROOM AT THE TOP**

**98" Lift Height for Even Your Largest Game! BUCK UP II incorporates all the features you need...And then some.**

We listened and the new BUCK UP II incorporates new features and additions that you will welcome. We increased the lifting height to 98" - plenty high for the largest trophy. We also added an accessory tray—ever wondered where your knife went? Ever needed a place to put a just-removed quarter from an animal? The simple field assembly takes seconds—slip fit sections slide together. We also designed a wide top section to give you room to maneuver. People also use it for holding cast iron pots over wood fires! One time initial assembly of the winch to one leg and connecting the pulleys (15 minutes).

- 300 lb Capacity
- Tall 98" Lift Height
- 600 lb rated winch with machined pulleys for no-bind cranking
- 51 lbs total weight
- 21" x 14" Aluminum accessory table rinses off with ease
- Sections fit together with slip-fit design
- Cast Iron top section for additional strength

U.S. Patent No. D730,613

# DEER SPLITTER STAINLESS STEEL SPLITTING TOOL

## CLEAN YOUR GAME QUICKLY AND EASILY

**The Deer Splitter Game Splitter Assistant from Viking Solutions is a new tool that makes splitting the chest cavity and pelvic bone a breeze! New blade design for 2018!**

This stainless steel device delivers a 19X force that will split these two areas and keep your hands and knives outside the animal. The Deer Splitter provides several advantages over traditional methods: You can keep your knife sharp because you don't have to dull it cutting the chest open or splitting the pelvic bone; You keep your hands outside the animal and this eliminates puncturing anything inside; And it eliminates the risk of cutting yourself or someone else with a knife while cutting through these difficult areas. The Deer Splitter is small enough to keep in a backpack or fanny-pack but packs the power to tackle these two tough areas on your animal as well as jawbone extraction. The stainless steel construction and quality engineering means you'll get many years of trouble free service. Simple to clean under running water. This is one tool you don't want to go to the woods without!

U.S. Patent No. 9,826,746

# SUPER HIDE PULLER ONE HANDED OPERATION

## SKINNING IS NOW MUCH EASIER!

**No more cold or greasy fingers. Skinning is now much easier. The harder you pull, the tighter it grips!**

The Super Hide Puller solves some of the oldest problems with skinning game! Cold skin—cold animal? No problem! The leverage design lets you operate it with one hand—open with the built in “trigger” - attach to the skin—and pull as hard as you want!

The cast stainless construction will last for years and it washes off with ease. Most skinning devices require two hands, but ours lets you continue with your knife.

- Stainless steel construction
- Leveraged one-hand operation
- Built-in opening “trigger”
- Serrated gripping jaws for maximum holding power
- Only weighs 1.8 lbs
- Cleans with simple soap and water
- 5 year warranty

# TILT-N-GO TILT-N-GO EASY TRANSPORT ASSISTANT

## LOAD, HAUL & TRANSPORT WITH ONE CARRIER

**Tilt-N-Go is a multi-function carrier that makes it easy to load, haul, and then transport attached to your vehicle by converting to a hitch mountable carrier.**

The Tilt-N-Go is the new hitch-mounted tiltable hauler that transforms into a super-efficient wheeled-transporter of heavy objects! If you have your deer ready to load, the Tilt-N-Go will tilt over to either side so that pulling your deer onto the carrier is easy. When you can't get your truck or ATV close to the deer, the wheel kit is easy to attach and makes loading an animal fast and easy. The 13.5" tires are big enough to navigate through tough terrain and durable for multiple season use. No more loading deer carts into your vehicle – why not use the storage space on your hitch and then have your cart available as needed? This unique product combines the functionality of several products into one affordable unit!

We designed it for hauling game, but people are finding multiple uses for the product – hauling seed or fertilizer for home or farm – hauling coolers from the dock – bringing home gardening supplies to your house and then using the wheels to carry around the yard – there is no limit to the uses!

### USE YOUR TILT-N-GO AROUND THE HOUSE, FOR WORK AND ON TRIPS!

- Carrier tilts for easy loading and easy lifting
- Carrier dimension size of 20" x 47"
- Easy rolling all-terrain tires attach and detach with locking pin
- Hitch mount allows the carrier to attach to vehicle for transport
- 300 lb weight capacity
- Versatile carrier for any cargo
- Now includes kickstand for easier loading

U.S. Patent No. 9,056,623 B1

### TRAILER HITCH ADAPTER

We also have an optional trailer hitch adapter to let you pull your TNG behind an ATV or lawn tractor - simple installation with 2 pins - 2" ball size.

*(Shown to the right with optional trailer hitch adapter)*

## SWIVEL LIFT EASY PLATFORM LOADING ASSISTANT

LIFT HEAVY LOADS BY YOURSELF ON A STABLE PLATFORM

**SwivelLift is the easy way to get heavy loads into your truck or SUV. With SwivelLift installed you just move the load onto the wide and stable expanded steel platform and let the hand winch easily do the heavy lifting.**

No more struggling to get a heavy load into your vehicle, plus you won't have to wait to get someone to help. SwivelLift gives you the power to make two-man jobs into one-man jobs. Need all your tools for a project at another location? Roll them on and lift them up. How about a load of fertilizer, mulch or cement? Add them to your handtruck and roll them on the platform for a lift. Want that load of fish feed, horse feed or any other kind of feed moved to another location? Just wheel it over on your handtruck and place it on the platform for lifting. Platform size: 36" x 21.5" and weighs 48 lbs.

**You will be amazed at what you can do when SwivelLift gives you the power to lift heavy loads.**

U.S. Patent No. D744,382 S

## HIGH TAIL EASY FIELD DRESS ASSISTANT

FIELD DRESS YOUR DEER BY YOURSELF IN JUST MINUTES

**The High Tail is a lightweight, fold-up, V-shaped cradle that provides a handy "nest" for the rear-end of an animal.**

It also provides a means to secure both rear legs to avoid the hunter having to hold them out of the way. It is multi-purpose because this product gets the animal's posterior off the ground, stabilizes it for cutting, and provides containment to secure the rear legs. It has been proven that with the High Tail device a deer can be "gutted" in the field by a single person in less than 8 minutes, including setting it up. Small, portable and back-packable. Light weight, quick and easy to assemble. Strong and durable support with quality engineering for years of trouble-free use.

- Field dress your deer by yourself in just minutes
- Keeps the rear off the ground.
- Sets up in seconds
- Secure, easy one-person job
- Folds to fit into included canvas carry bag

U.S. Patent No. D719,239 S

## PERPENDICULAR ROD RACK STORAGE

MOUNT YOUR ROD HOLDER IN A VARIETY OF PLACES

**The Viking Perpendicular Rod Rack allows you to mount your rod holder in a variety of places.**

Our unique design lets you store your rods in a closet, or on a deck post — anywhere you need a rod holder! This rack storage system holds 12 rods and is powder-coated for long life and durability.

- Unique design allows you to mount a rod holder perpendicular to your wall or deck post
- Can be mounted in “tight” spots – closets, etc.
- Holds up to 12 rods
- Powder coated for indoor/outdoor use
- Stands out from the wall 19"

*Rods and reels not included.*

## WALL MOUNT ROD RACK STORAGE

MOUNT YOUR ROD HOLDER IN A VARIETY OF PLACES

**The Viking Wall-Mount Rod Rack mounts to the wall and holds up to 11 rod/reel combos. Plenty of space is provided between the rod holders to accommodate large rods.**

Powder-coated for maximum durability and backed by our customer support (true user) team. This rod holder is designed to be vertically (not ceiling) mounted.

- Holds 11 rods
- Powder-coated for long life
- Functional rugged design holds your rods where needed
- Two separate pieces allow you to place on your wall to suit your needs
- 31" total length

## FLOOR/DECK MOUNT ROD RACK STORAGE

EASILY STORE ALL YOUR RODS & REELS!

**The Viking Floor/Deck Rod Rack allows up to 22 rod and reel combos to be stored in your home or out on your fishing deck. Its light weight lets you move it with ease.**

Durable powder coat finish will last for years – full 2 year warranty. The simple design makes for quick and easy (one-time) assembly. You can't go wrong with Viking products – we are customer-focused and we stand behind our products!

- Up to 22-rod storage rack that easily moves to another location if desired
- Powder-coated finish lasts for years; quality design and construction
- Easy one-time assembly (usually less than 15 minutes) stores rods with reels attached
- Adjustable to accommodate most rod sizes — no water-collection design allows rods to be rinsed off in the rack
- Light weight (16#) – 2 year warranty – (rods and reels not included)

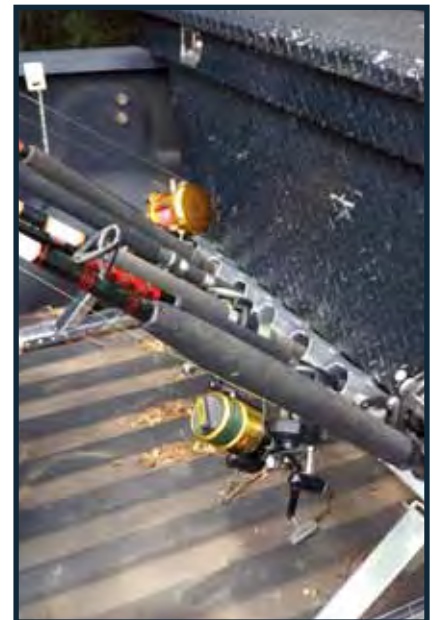

## COMBO TRUCK/WALL ROD RACK STORAGE

MOUNT YOUR ROD HOLDER IN A VARIETY OF PLACES

**The new Viking Solutions Truck Bed/Wall Mount Rod Rack gives you an easily transportable rod rack for carrying your rods in a truck bed but also hangs on your wall with a supplied “z channel”.**

The rack is all aluminum/stainless construction with flared ends on the rod tubes for easy insertion and rod protection. This rod rack features 10 rod tubes, adjustable rod angles for transport, and attaches via supplied cam-buckle straps to the truck bed tie-downs. Rods can face either forward or rearward depending on your preference - simply attach and tighten the cam-buckle straps for transport, install your rods, and reattach to your wall when you return home! Only weighs 12# but is engineered for stiffness and durability. When attached to the wall the rods lean slightly away from the wall.

- Combination Truck Bed/Wall Mount Rod Rack solves 2 problems
- All aluminum/stainless construction for years of use - hold 10 rods
- Adjustable angle for wall or truck use - rods will stand nearly vertical on wall (see image)
- Locks down in truck bed with cinch strap (included) and Z-channel mounts to wall for hanging rack
- Rod tubes are flared to prevent rod damage - brushed aluminum finish looks nice on the wall as well

*Rods and reels not included.*
