MULTI-TOOLS

A solution in your pocket: that's what SOG's line of award-winning multi-tools are designed to provide. Solutions for the myriad of things that can happen while on deployment or on patrol. Solutions for unexpected challenges at a backcountry campsite. Solutions to the small daily problems that crop up at the most inopportune times: a loose screw, an unopened bottle or packing tape in need of cutting.

For more than 30 years, SOG has made multi-tools capable of carrying out any sized mission. Incorporating unrivaled technologies like Compound Leverage that deliver smooth one-handed opening and superior gripping power, SOG's multi-tools have consistently helped people solve problems.

SOG's line of multi-tools are designed in Seattle and guaranteed for life.

DAILY

FLASH MT

MULTI-TOOL

A street-smart multi-tool that boasts everyday capabilities in a compact package.

For those who value daily readiness, the versatile Flash MT provides an understated and highly functional solution. Its unique stainless-steel housing holds seven tools, and the plier head uses SOG's trademark Compound Leverage. SOG's team heaped special attention on the assisted opening CRYO D2 steel blade, making it more practical than most multi-tool knives. It's a modern styled multi-tool that's a breeze to carry and use all day, every day.

POWERACCESS

MULTI-TOOL

Pocketable, streamlined, and comfortable: the PowerAccess is the ultimate EDC multi-tool. Equipped with our patented gear-driven Compound Leverage mechanism, the PowerAccess doubles the torque at plier jaws maintaining grip and reducing chances of slipping off nuts and bolts. The outward-opening components are easily accessible with the multi-tool closed and will lock securely open. When closed, the PowerAccess has a centered, magnetic hex bit driver that can utilize any widely available quarter inch hex bit.

POWERLOCK

MULTI-TOOL

Using the proven PowerLock chassis, SOG is the only company to apply Compound Leverage technology to EOD (Explosive Ordnance Disposal). This makes it a breeze to crimp blasting caps and demolition cord with less hand pressure. Another unique SOG feature is the positioning of the crimper device within the confines of the handle...not in the plier jaw, like all other designs. This serves to minimize collateral damage to the crimper and allows the operator to have full use of the uninterrupted plier surface. Additionally, there is no weakening of the pliers that often causes breakage of the plier tips. The crimper produces non-flaring, high pull out strength crimps that meet government fuse well specifications. Also includes hard wire cutter. All GSA approved.

TELLUS FLK

FRAME LOCK FOLDING KNIFE

Tellus FLK is a rugged folding knife, that's a brawny solution for down-and-dirty jobs for when you're off the beaten path.

A trusted companion in the forests or the fields, Tellus FLK is a dependable, full-sized frame lock folder that comes up big when you need it most. It's thick blade and easy gripping handle combine to make it an exceptionally durable bushcrafting knife. It's easy to open with the kicker or the thumb-stud, and purposefully designed to operate in the dirt, mud and muck.

A broad-shoulder 3.65" CYR0 440 stainless steel blade provides plenty of backbone to this outdoors workhorse. The GRN handle is easy to manipulate when performing a wide variety of tasks, while SOG's frame lock mechanism has been engineered to mitigate the effects of dirt, mud and other debris that can foul a mechanism.

KEYCHAIN TOOLS

A solution in your pocket: that's what SOG's line of award-winning multi-tools are designed to provide. Solutions for the myriad of things that can happen while on deployment or on patrol. Solutions for unexpected challenges at a backcountry campsite. Solutions to the small daily problems that crop up at the most inopportune times: a loose screw, an unopened bottle or packing tape in need of cutting.

For more than 30 years, SOG has made multi-tools capable of carrying out any sized mission. Incorporating unrivaled technologies like Compound Leverage that deliver smooth one-handed opening and superior gripping power, SOG's multi-tools have consistently helped people solve problems.

SOG's line of multi-tools are designed in Seattle and guaranteed for life.

DAILY

RAPID RESCUE + RAPID EDGE

DAILY CARRY TOOLS

Made for those who want to always be prepared, this compact tool conceals its true strength.

Rapid Rescue features a seatbelt cutter and glass breaker, and Rapid Edge has a compact blade. Stored on a keychain or lanyard loop, Rapid is quickly and easily deployed and flies under the radar when not in use. The design of the handgrip intuitively guides your fingers into the optimal position when deployed, providing a secure grip to get to work.

Rapid is quick to deploy from the sheath with a simple tug and is easily controlled with one finger through the index finger hole. Made with a full tang tool design, Aluminium pull-ring and textured GRN grip and sheath.

A close-up photograph of a soldier in camouflage tactical gear. A SOG fixed blade knife is attached to the soldier's vest with a MOLLE strap. The knife has a black handle and a silver blade. The background is a blurred landscape with mountains under a clear sky.

FIXED BLADES

The story of SOG begins with a fixed-blade knife: the S1 Bowie. From there, SOG has developed an overarching company mission to provide solutions to real life problems. Fixed blade knives remain central to that.

Within SOG's expansive line of fixed blades there are options for hikers and hunters, anglers and alpinists, soldiers and civilians, or commuters and cops. With a wide variety of shapes, steels and handle materials, SOG's fixed blades have been confidently taking care of business for 35 years.

SOG's line of fixed-blade knives are designed in Seattle and guaranteed for life.

PROFESSIONAL

PENTAGON FX

FIXED BLADE KNIFE

Pentagon FX is full-sized hard-use knife designed for professionals. Featuring a premium double-edged, full-tang blade and an innovative sheath design that's configurable to the mission needs of the user.

Pentagon FX was developed with professional users who need a full-sized combat dagger. With a solid, 4.77-inch S35VN dual-edged fixed blade and modern sheath system designed for multiple carry configurations. It has a rugged G10 handle – removeable for a thinner profile – made to stand up to demanding conditions and uses.

INCLUDES UMS CLIP

SURREPT CARRY SYSTEM

FOR DAILY CARRY USERS WHO MAKE PREPAREDNESS A PRIORITY, SOG HAS DESIGNED A DELIBERATE SOLUTION: THE NEW SURREPT CS LINE OF PACKS AND ACCESSORIES.

With clean, understated designs that conceal the depth of their functionality, SOG's Surrept Carry System packs are created for those who rise to the challenges of daily life. Comfortable to carry and full of options for customized internal organization, Surrept balances the needs of the confident user with the demands of preparedness.

OUR APPROACH

Since 1986 SOG, has studied what's required to be properly equipped for the shifting demands of a fast-paced life. Since then, we've applied our observations to a wide array of solution-based products. With Surrept CS, SOG has designed a line of packs that provide a community of gear users that want highly function packs that purposefully blend fashion with practical utility.

Surrept Carry System approach:

- Blend the best technical and functional features from both outdoor and tactical categories and combine them in daily carry packs.
- Are loaded with features like quick-access pockets, logical and customizable internal organizations, covert-carry back compartment and discreet compartments for daily carry essentials.
- Are designed in an understated, urban style to fit in seamlessly with other commuters.
- Come in a variety of sizes that are designed to work systematically with each other.

Surrept Carry System is SOG's updated line of packs and accessories that are deliberately designed for those who want to always be prepared, but don't want everybody to know it. Each of the six packs in the line are highly functional, discreet and made with the features required for those who are not afraid to dive headfirst into solving problems.

KEY FEATURES

- **Six packs:** Range in size from small storage and organizing pouch to a 36-liter travel pack.
- **Low-visibility:** Understated design with a discreet urban look.
- **Systemized:** Smaller organizers work on their own or in conjunction with larger packs.
- **Quick access:** Allow users to easily get to emergency gear or CCW.
- **Logical layout:** Layered and considered organization inside each pack.
- **Easy carrying:** Made with padded shoulder straps and water resistant 420 D nylon.

MADE TO WORK TOGETHER ... OR INDEPENDENTLY

The smaller packs in SOG's Surrept CS pack line are designed to work as independent daily carry options or as part of a planned system with the larger packs. The smaller packs provide an additional level of organization for items like computer cables, work supplies, headphones, laptops or travel accessories. The larger packs are smartly designed to provide configurable pack systems for the prepared traveler.

Designed to meet the demands of a busy professional and personal life, Surrept/16 CS Daypack is a pack that puts a premium on understated and capable daily carry.

FEATURES

Constructed from water-resistant 420D nylon, Surrept 16/CS Daypack has 16-liters of smartly designed storage space, locking zippers, a customizable secure organizer pocket, and a padded laptop sleeve.

VELCRO RECEPTIVE PANEL

Allows for customized storage, including a med-kit, gear organization or holster

LARGE MAIN STORAGE AREA

Spacious for most daily carry items

BOTTOM ACCESS POCKET

Quick access to essentials or for storage of critical gear

PADDED LAPTOP POCKET

Secure carry for your laptop

Surrept/36 CS Travel Pack

ULTRA-LIGHT REVERSIBLE PACK PROVIDING A FLEXIBLE CARRY OPTION FOR CLOTHING AND LAPTOP, USE IT AS A STANDALONE PIECE OR PART OF AN OVERNIGHT PACK.

Designed to work on its own or in conjunction with travel packs this pack functions essentially as a drop-and-go bag. With 12 liters of storage, there's room for your laptop, and a few daily carry staples.

FEATURES

Pairing well with a multi-day travel pack, this lightweight Surrept/12 CS Reversible Carry Pack allows you to store a laptop in the padded sleeve and bring along a few daily essentials and writing supplies. Easily reversible to convert to a packing cube.

DUAL-CONFIGURATION

Use as a light backpack or as a laptop sleeve in a larger pack

CONTOURED ADJUSTABLE SHOULDER STRAP

Gives you multiple carrying options

GENERAL TERMS AND CONDITIONS FOR SOG WHOLESALE ACCOUNT

SALES POLICY

All SOG® and Tool Logic® products purchased at wholesale pricing must be sold under the terms and conditions set forth below. Publication and distribution of SOG and Tool Logic catalogs and/or price lists do not constitute an offer to sell.

PRICES

Prices are subject to change without notice. All orders received by SOG will be deemed to be submitted at "prices in effect" upon receipt of order.

QUALIFICATIONS

1. Customers are required to have a storefront, mail order catalog, or online presence.
2. Customers must provide completed and signed MSRP application, copy of business license, and state tax ID#.
3. A minimum opening order of \$500 must be submitted with MSRP application.
4. Customers must meet price level qualifications to maintain given price level.

TERMS

Decisions concerning the extension of credit terms are made by SOG at its sole discretion. We will require a copy of your business license state tax ID# and a completed application for approval (this includes credit card accounts). Accounts that satisfy SOG's credit criteria may purchase products from SOG on a 2% 10/net 30 day basis from invoice date. Shipments refused for any reason will be assessed a charge equal to the return shipment fee. Returned checks are subject to a \$25 surcharge. Past due balances are subject to a service charge of 2% per month.

FREIGHT

All orders will ship via UPS insured ground service unless otherwise specified. SOG reserves the right to choose the most economical carrier on larger shipments.

The purchaser shall assume the risk of loss for all freight collect shipments (or shipments where you secure your own insurance policy) upon leaving our facility. Prepaid freight is available for certain price levels and minimum orders – consult your pricing level outline for details.

SHORTAGES

Claims against the seller for shortages must be communicated directly to SOG within 5 days of the arrival of the shipment.

BACK ORDERS

Items not in stock at time of order will be placed on back order. Back orders will remain open until shipped or canceled.

RESELLING

Accounts buying on the Wholesale, Direct 6, or Direct 10 may only sell SOG Products to end consumers and shall not engage in selling SOG Products to other retailers or wholesalers authorized or not. SOG distributors must have an in-force SOG Distribution Agreement in order to re-sell at wholesale.

GENERAL WARRANTY

All SOG and Tool Logic products carry a lifetime guarantee against defects in workmanship and materials. This guarantee is voided by misuse, abuse, improper maintenance, or alterations of the product and does not cover any normal wear that might occur. All warranty claims should be directed to SOG. Only SOG is authorized to replace or repair a defective product. SOG must first examine the product to determine whether to repair or replace it. Retailers are not authorized to exchange product and must contact SOG for warranty authorization or send the customer directly to SOG for resolution. U.S. claims should be sent prepaid and insured. SOG reserves the right to repair or replace product at our discretion. For more information on SOG warranty see: <http://www.sogknives.com/warranty-info.html>.

RETURN GOODS POLICY

A valid SOG return authorization number must be obtained prior to returning goods. All returned or refused goods are subject to a 15% restocking fee. Freight on all returns must be prepaid; products must be inline, include original packaging, free of stickers or labels, and not damaged. SOG will issue a credit memo – for net costs of goods less restocking fee – to be applied to future purchases only.

AUTOMATIC KNIVES

SOG automatic knives will only be shipped to MSRPs or other legal entities that sign and return the Automatic Release Form stating that they are in compliance with the required Federal statutes.

SOG ONLINE 3P POLICY

It is SOG policy to not sell, nor otherwise supply, any unauthorized entity that sells items bearing the SOG trademark on the Amazon, Walmart.com and jet.com 3P platforms.

Any unauthorized entity selling SOG branded items on these platforms will be considered to be selling counterfeit SOG goods and will be subject to action.

This policy supersedes all previous policies regarding Online 3P Platforms.

Authorization is conferred via written permission from the SOG VP of Sales and must be renewed annually.

We will take the following actions when discovering unauthorized sellers:

First violation: written warning

Second violation: 60 days on SOGs DNS (Do Not Sell) list

Third violation: permanently placed on DNS list

MINIMUM ADVERTISED PRICE POLICY

EFFECTIVE JANUARY 1, 2020

In order to prevent advertising practices which undermine its reputation for providing customers with high value products and to further protect the integrity of the SOG® brand image, SOG Specialty Knives and Tools, LLC ("SOG") is unilaterally adopting a policy of minimum advertised price standards for SOG brand products. This Minimum Advertised Pricing Policy ("MAP Policy") shall be effective January 1, 2020 and shall remain in effect until amended or withdrawn by SOG in writing. This policy supersedes and replaces all prior MAP pricing policies applicable to SOG products. It applies to all resellers of SOG products to end users ("Resellers") located in the United States.

SOG greatly values the efforts of all Resellers to invest in the SOG product lines and provide the best possible service and support to SOG consumers. This MAP Policy is adopted for the benefit of all Resellers and will be uniformly enforced.

THIS MAP POLICY SHALL WORK UNDER THE FOLLOWING GUIDELINES:

1. This MAP Policy applies only to advertised prices and does not affect the prices that a Reseller may charge for SOG products. Each Reseller selling SOG products remains free to establish its own resale prices and promotions; however, SOG may, without assuming any liability, refuse to sell, either directly or through distribution, to any Reseller following verification by SOG to its sole satisfaction that the Reseller has violated this MAP Policy.
2. This MAP Policy does not constitute an agreement between SOG and any other entity. Each Reseller of SOG products is free to independently decide whether or not to follow this Policy. SOG does not ask for nor will it accept any assurance of compliance or agreement from a Reseller regarding this MAP Policy, nor will SOG discuss any conditions of acceptance related to this MAP Policy.
3. This MAP Policy is not negotiable and will not be altered for any individual Reseller.
4. This MAP policy does not establish maximum advertised prices. All resellers may offer SOG products at any price in excess of the MAP established for such products.
5. SOG will, from time to time, publish the Minimum Advertised Price Schedule ("MAP Schedule") for some or all of its products as part, or in concert with, the publication of updated price lists, catalogs, or other selling materials which may be distributed in physical form, electronically, or on its website. MAP Schedules will identify the products, effective date, and specific Minimum Advertised Prices ("MAP") for products covered under this MAP Policy. Each advertisement of a product identified in the MAP Schedule at a price below the specified MAP listed will be a violation of this MAP Policy. Products without MAP specified in the MAP Schedule are not subject to this MAP Policy. The initial MAP Schedule is distributed along with this document. The MAP Schedule will be made available to all Resellers and may be amended by SOG in its sole discretion at any time.

6. This MAP Policy applies to all advertisements of SOG products listed on the MAP Schedule in any and all media, including, but not limited to, flyers, posters, coupons, mailers, inserts, newspapers, magazines, catalogs, mail order catalogs, e-mail newsletters, e-mail solicitations, internet or similar electronic media, television, radio, and public signage. This MAP Policy is not applicable to any in-store advertising that is displayed only in the store and not distributed to any customer(s).
7. If advertised pricing is displayed, any alteration, strike-through or discount which is paired with an allowable price that results in a discounted advertised price below the MAP is a violation of this MAP Policy.
8. This MAP Policy applies only to advertised prices and does not apply to the price at which SOG products are actually sold or offered for sale to an individual consumer within Resellers' retail location or over the telephone. Resellers may sell these products at any prices they choose under these circumstances without violating this MAP Policy.
9. Internet auctions may not display or have reserved bid or other acceptable prices below the MAP.
10. Pricing listed on an internet site is considered an "advertised price" and must adhere to this MAP Policy. Once the pricing is associated with an intent to purchase (added to shopping cart or order), the price becomes the selling price and is not bound by this MAP Policy. Selling price information that falls below MAP Prices must be obscured technically so that it is not retrievable by shopping and pricing engines, and not displayed on search page results within the reseller's own website. Statements such as "add to basket to see price", "we will match any price", "call for price" or phrases of similar import are acceptable as long as the price advertised or listed for the products is not below the MAP. In addition, discounts applied at checkout to the entire order based on a customer's purchasing history with the Reseller, such as discounts for "frequent shoppers", do not violate this MAP Policy. The advertisement of free or reduced-price shipping is not a violation of this MAP Policy as long as such offer applies to all or almost all other products offered by a reseller in the same product category.
11. This MAP Policy is solely within SOG's discretion and may be delivered to Resellers directly by SOG and its representative or via SOG's Authorized Distributors. However, SOG representatives and Distributors are not authorized to make any representations, give any explanations, or otherwise communicate with Resellers about the Policy. No employee or sales representative of SOG has any authority to discuss, modify or grant exceptions to this MAP Policy. Any representation or action by any employee, sales representative or persons not specifically authorized to discuss, modify or grant exceptions to this MAP Policy under this paragraph is unauthorized and invalid. SOG does not request, and in fact discourages, any complaints by Distributors, Resellers or customers as to perceived violations of this Policy by other Resellers or Distributors.
12. All questions about this MAP Policy should be in writing and directed via U.S. Mail to MAP Policy Administrator, SOG Specialty Knives and Tools, LLC, 6521 212th Street SW, Lynnwood, WA 98036 or via e-mail to MAPAdministrator@sogknives.com who will respond only in writing. No oral communications about this MAP Policy are authorized. The MAP Policy Administrator shall be solely responsible for determining whether a violation of the policy has occurred and for communicating decisions to Resellers regarding the policy and receiving any communications regarding sanctions imposed under this MAP Policy. Any action taken by SOG under this MAP Policy shall be without liability to SOG. This Policy is subject to change at any time by SOG in its discretion.
13. From time to time, SOG may choose to offer special promotions on certain products. In such an event, SOG reserves the right to modify or suspend this MAP Policy in whole or in part by notifying all Resellers of the duration and nature of the change. SOG further reserves the right to adjust the MAP with respect to all or certain products at its sole discretion. Such changes shall apply equally to all Resellers.
14. Failure to abide by this MAP Policy will result in sanctions unilaterally imposed by SOG. Although SOG is not directing any reseller to require that its customers comply with this MAP Policy, a violation of this MAP Policy by any such third party will constitute a violation by the reseller. SOG will take the following actions against any reseller that fails to comply with this MAP Policy with respect to the advertisement of any SOG product with a MAP:
 - i. For a reseller's first violation of the MAP Policy, SOG will notify the reseller in writing of such failure and will allow reseller to correct within 3 business days.

- ii. For a reseller's second violation of the MAP Policy, SOG will notify the reseller in writing of such failure and will immediately place the reseller's account on shipping hold for ninety (90) days. SOG will revoke its acceptance of any pending orders, cancel any pending shipments to reseller, and not accept any new orders from reseller during this 30-day period.
- iii. For a reseller's third violation of the MAP Policy, SOG will notify the reseller in writing of such failure and will immediately place the reseller's account on shipping hold for sixty (60) days. SOG will revoke its acceptance of any pending orders, cancel any pending shipments to reseller, and not accept any new orders from reseller during this 60-day period.
- iv. For a reseller's fourth violation of the MAP Policy, SOG will terminate its business relationship with the reseller. SOG will revoke its acceptance of any pending orders and cancel any pending shipments to the reseller.

A continuing violation of the MAP Policy will be deemed to constitute a subsequent violation if it continues for more than seven (7) days after Reseller receives notice of the violation.

15. The terms of this MAP Policy are confidential and should not be disclosed to other parties. This MAP Policy has been established by SOG to help ensure the legacy of SOG as a leading brand of high performance, high quality products and to protect the reputation of its name and products. This MAP Policy is also designed to support SOG customers and consumers, and ensure that Resellers and Distributors have the confidence and incentive to invest resources into building their business with the SOG brand.

16. SMU versions of inline products are subject to MAP

MAP HOLIDAYS

SOG designates a certain number of MAP holidays each year during which authorized retailers may mark down MAP items a certain percentage off MAP price. Inquire with your sales representative for details.

MATERIAL TECHNOLOGIES

BLADE STEELS

Certain steels will make thousands of cuts without sharpening, some can literally take a beating without chipping, whereas others are made for marine environments. SOG chooses steels based on the defined use-cases of each tool. Below is a short description of common types.

CTS XHP

64 HRC | PREMIUM STEEL

A powder-made stainless steel developed by Carpenter Steel and known for its increased corrosion resistance and high level of hardness. The chemistry of the steel promotes the even distribution of vanadium carbides, which are very effective at cutting, giving the steel a highly refined grain that further adds to the sharpness and toughness of its edge.

CPM S35VN

59-61 HRC | PREMIUM STEEL

A powder-made stainless steel developed by Crucible Materials Corporation, known for its hardness, toughness, edge retention, and corrosion resistance. Its chemistry promotes the formation and even distribution of vanadium carbides, which are harder and more effective at cutting than chromium carbides.

SOG STEEL CRYOGENIC HEAT TREATMENT

To optimally temper the steels used in our knives and tools, SOG has developed unique cryogenic heat treatment processes that relieve stresses in the blade material on an atomic level, resulting in an overall increase in toughness and heightened wear-resistance.

CPM 154

56-60 HRC | HIGH-END STEEL

An excellent EDC blade steel with above average edge retention, corrosion resistance, and ease of sharpening. This steel offers better corrosion resistance, improved wear resistance, and higher hardness than 440 series steels. When used in knives, it holds an edge and resists chipping.

KRUPP 4116

55-56 HRC | HIGH-END STEEL

A fine-grained stainless steel produced by German ThyssenKrupp manufacturers. The steel features a good balance between carbon and chromium, which is the secret behind its exceptional corrosion resistance, edge retention, and added strength. With its improved corrosion resistance this steel is good for uses in wet environments.

440

56-58 HRC | UPPER MID-RANGE STEEL

A classic stainless steel that has good toughness, with excellent edge retention, corrosion resistance, and wear resistance. Belonging to the 440 series this is the version with highest carbon content which provides the increased hardness, improved wear resistance, and better edge retention. Great for many outdoor uses.

D2 TOOL STEEL

60-62 HRC | UPPER MID-RANGE STEEL

A versatile high-carbon, high-chromium, air-hardened steel that is characterized by a relatively high attainable hardness and numerous large chromium-rich alloy carbides in the microstructure providing good resistance to wear. D2 provides an effective combination of wear resistance, toughness, performance and price.

AUS-8

56-58 HRC | UPPER MID-RANGE STEEL

A heat treated, high-grade chromium Japanese steel with a relatively low carbon content, known for its toughness and strength and characterized by its edge holding ability and corrosion resistance. It contains vanadium, which is renowned to give the steel more hardness.

8CR13MOV

56-58 HRC | UPPER MID-RANGE STEEL

A stainless steel known for its edge holding ability and corrosion resistance. It has an increased carbon content and added alloying elements such as molybdenum, vanadium and nickel to improve its hardness, wear resistance and toughness.

HANDLE AND CONSTRUCTION MATERIALS

While blade steel often gets all the glory, handle material is just as important, because it's how users directly interact with our products. The same amount of care goes into handle and construction material selection as goes into steel choice.

G-10

A very durable material that is made of heat cured compressed fiberglass set in resin. This process makes it impervious to liquid and is physically stable under extreme temperature fluctuations. G-10 typically includes a high-grip textured finish.

ALUMINIUM

Known for its light weight, Aluminium has good mechanical properties and is one of the most common alloys for general-purpose use. Aluminium is typically anodized for extra protection and color, with hard anodized coatings offering superior scratch resistance.

GLASS REINFORCED NYLON (GRN)

High-strength, light-weight, abrasion, and impact resistant. Made with varying degrees of glass fibers added for extra stiffness and texture. GRN offers chemical resistance to common chemicals. GRN can be injection molded, allowing for complex geometry design.

CARBON FIBER

Offering high strength with low weight, it also has high stiffness and tensile strength, with high chemical resistance and temperature tolerance. It can be used for structural parts and high wear components.

LINEN MICARTA

Often made of compressed linen set in resin. When machined, the edge exposes the linen, providing a softer hand feel. Linen Micarta is somewhat absorbent, developing an elegant patina over time.

NATURAL MATERIALS

Natural materials include wood and leather, offering a more traditional look and feel. These materials often patina with use and age to provide a unique appearance.
